

Infinite Strategies Inc.

To Whom It May Concern:

As a Director of IT and a client of Apex Business Solutions, Inc, I am writing this note to describe my reaction to the quality of work Apex Business Solutions Inc consultants performed the areas of Supply Chain Consulting, Business Intelligence and ERP application development. You may feel free to use my name and comments with any marketing efforts you so desire in your work.

Apex Team has shown commitment to Infinite Strategies requirements and assisted in completing the Infinite Strategies projects according to the plans. I find Apex consultants having good functional and technical knowledge and aware of the latest SCM/BI/ERP Technology. Even in other areas, I am satisfied with Apex support. We have increased efficiency in areas with some of the creative applications development.

In Apex, we find a capable company in not only delivering an IT solution but also a complete Business Solution. Apex's consultants carry exhaustive integration skills and their suggestions have improved our Information Systems. Apex's partnership for suggesting and developing applications for us will help us in effective decision making.

Apex has been instrumental in our successful implementation of SAP SCM. They helped us to avoid costly missteps and have proven their value time and time again with world-class expertise that yields genuine business value and significantly increases our ROI. When it comes to SAP SCM, I recommend Apex without reservation

Apex had the experience, tools and methodology to quickly design, build, and test our application. Their Consultants provided us with the deep onsite expertise we needed to quickly and cost-effectively bring our system to Live. Our partnership with Apex has been a remarkable success.

On behalf of Infinite Strategies, I strongly recommend Apex Business Solutions, Inc to any company; particularly those companies require complex supply chain planning tools and require streamlining supply chain planning processes.

I look forward for working with Apex Business Solutions, Inc again and like to discuss other projects where we could use Apex Business Solutions services.

Thanks again for the job well-done.

Sincerely,

Infinite Strategies
